TIMBER FLOORS

HOW TO INSPECT YOUR FLOORS & WHAT TO EXPECT

NOTE: TIMBER IS A NATURAL PRODUCT, COLOUR VARIATIONS, DEFECTS, TEXTURE, FINISHES & IMPERFECTIONS CAN BE EXPECTED WITH ANY NATURAL PRODUCT.

AUSTRALIAN INDUSTRY STANDARDS FOR VIEWING OF TIMBER FLOORING IS AS FOLLOWS: Materials are to be viewed from a normal standing position. A normal standing viewing position is considered to be 1.5 meters or greater, with the surface of the material being illuminated by "non critical light". "Non critical light" means the light that strikes the surface is diffused & is not glancing or parallel to that surface. Slight variations in colour & finish of materials do not constitute a defect.
